Waterbrooms Free to South Bay Businesses

Must have order in by May 30, 2008

This new water saving technology uses a combination of air and water pressure to clean and remove dust dirt, food spills, leaves, litter, sawdust and bird droppings from concrete asphalt or any other hard surface.

The air and water pressure does all the work.

Made in the USA, the lightweight Watermiser™ Waterbroom can be used on any area that is now being cleaned using a hose and nozzle, power washer or similar device.

- construction job sites
- kitchen floors
- waste disposal areas
- garage floors
- tennis courts
- driveways
- patios
- pool decks
- sidewalks
- parking lots
- playgrounds
- outdoor basketball courts
- fire station bays
- airplane hangers

Exceptional Water Savings – Uses as little as 2.0 gallons per minute vs. a hose and nozzle that may use from 6 to 18 gallons per minute. In the Metropolitan Water District Pilot Program participants averaged water savings in excess of 60%.

Cleans Faster – Users report their time is reduced by as much as 75% when compared to cleaning with a garden hose, power washer or broom.

Reduces Liability – Washes and dries in minutes, reducing the possibility of slipping and falling, and prevents runoff water, minimizing pollution.

Five Year Warranty – parts and labor.

Eligibility: Waterbroom must replace an existing pressure hose or high water usage spray nozzle.

Please indicate which model you prefer.
21" and 31" are recommended for restaurants (hot water), 36" and 46" for large areas such as parking lots or tennis courts (cold water).

☐ 21" ☐ 31" ☐ 36" ☐ 46"
Used with ☐ hot water ☐ cold water

First come, first served
